## Borough Council Committees and Assignments

Borough Council conducts a Work Session that starts at 9:00 pm on the first Wednesday of each month at Borough Hall. Prior to the Work Session, the Council Committees meet to gather information concerning the activities of each of the departments of the Borough. Each committee consists of three Council members and is staffed by the Department Head(s) whose work activities should be shared with that committee. The Committee meetings are a good time for citizens to come in and engage in discussion on any questions, concerns or ideas that they may have related to the work of that Committee. It is also a good time to hear about progress made on major projects in the Borough. Each Committee Chair reports on the items that were discussed during their meetings to the full Council and the public during the Work Session. Committee meetings and the subsequent Work Session are the vehicle by which Council members keep themselves and the public informed on the work of the Borough and decisions that will be made at the Business Meeting held on the third Wednesday of each month.
